Vinnie's Oil UPO

Version 1.0

Date of issue: 14/03/2023

SECTION 1: Vinnie's Oil UPO / Vincent Handcraft AB

1.1 Product

Tradename: Vinnie's Oil UPO (ultra penetrating oil)

Item Number: 1

1.2. Relevant identified uses of the substance or mixture and uses advised against:

Applications: Surface treatment of wood

1.3. Details of the supplier of safety data sheets

Enterprise: Vincent Handcraft AB

Contact: Vincent Alexandersson

1.4 Emergency phone numbers:

In an emergency, contact the Poison Information Center, alarm no. 911.
Poison Information Centre non-emergency: Phone: +4610-456 6700.
<http://www.giftinformationscentralen.se>

SECTION 2: HAZARDOUS PROPERTIES

2.1. Classification of the substance or mixture CLP No. 1272/2008. The product is classified as not dangerous.

2.2 Labelling particulars CLP nr. 1272/2008.

The product is not subject to labelling

danger symbols:

The product is not subject to labelling

The product is not subject to labeling

Signal words:

The product is not subject to labelling

H-Phrases:

The product is classified as not dangerous.

Safety data sheets

Vinnie's Oil UPO

Version 1.0

Date of issue: 14/03/2023

P-phrases:

Actions:

P305 - IN CASE OF CONTACT WITH EYES: Rinse gently with water for several minutes. Remove any contact lenses if possible. Continue rinsing.

Waste:

Other markings:

The product is not subject to labelling

2.3. Other hazards.

PBT / vPvB The product contains no PBT or vPvB substances. Description of risk Health hazard: The product is not considered to pose a health hazard. Fire hazard: Not fire or explosion hazardous. Rags, tangles soaked with linseed oil paint can self-ignite. Put such material in fireproof containers and let them dry in a safe place. Alternatively, put them in water to avoid self-ignition. Environmental hazard: The product is not considered to pose an environmental hazard.

SECTION 3: FIRST AID MEASURES

4.1. Description of first aid measures:

General: The product is classified as non-hazardous. In case of allergic reaction. Contact 112. Inhalation: Not relevant. Skin contact: Prolonged or frequent repeated contact degrades the skin and can cause skin irritation. Eye contact: May cause transient eye irritation. Ingestion: Ingesting a larger amount of product can cause nausea, vomiting and diarrhea.

When in danding: Not relevant.

In case of skin contact: Not relevant.

In case of contact with eyes : In case of discomfort, flush the eye for several minutes with temperate water. The product is classified as not dangerous.

If swallowed: The product is classified as non-hazardous. Ingestion of a larger amount of product can cause nausea, vomiting and diarrhea. In case of allergic reaction. Contact 112.

4.2 The main symptoms and effects, both acute and delayed:

In case of severe allergic reaction, contact 112.

4.3. Indication of immediate medical treatment and specific treatment as may be required:

When contacting a doctor, be sure to have this safety data sheet handy.

Version 1.0

Date of issue: 14/03/2023

SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing agents

Suitable extinguishing agents: quench with foam, powder, carbon dioxide.

Extinguishing agents that are unsuitable for safety reasons:

Direct jet of water.

5.2. Specific hazards that the substance or mixture may present:

The product is non-flammable. In case of fire, nitrogen oxides may form. Burns during the development of smoke containing gases harmful to health (carbon monoxide and carbon dioxide).

5.3 Advice for firefighters:

As with any fire, use the worn breathing apparatus and full protective equipment.

SECTION 6: MEASURES IN CASE OF ACCIDENTAL RELEASE

6.1. Personal protective measures, protective equipment and emergency measures:

No data to cater to.

6.2. Environmental protection measures: The product is classified as not hazardous to the environment.

6.3. Methods and materials for containment and decontamination:

No data to cater to.

6.4 Reference to other sections:

No data to accommodate

SECTION 7: HANDLING AND STORAGE

7.1. Precautions for safe handling:

Avoid contact with eyes to avoid discomfort.

7.2. Conditions for safe storage, including possible incompatibility:

Store in a dry and cool place. Store only in the original packaging. Stored in ventilated space. Do not expose to heat/sparks/open flame/hot Surfaces. The container should be well sealed. Keep out of the reach of children.

7.3 Specific End Use: No other information on specific end uses (see Section 1.2).

Vinnie's Oil UPO

Version 1.0

Date of issue: 14/03/2023

SECTION 8: EXPOSURE LIMITATION/PERSONAL PROTECTION

Respirators: No respirator necessary.

Eye/face coverings: No protective equipment necessary.

Skin protection: Use gloves to avoid allergies. The product is considered not hazardous.

Limitation of environmental exposure: The product is classified as not hazardous to the environment.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1

Appearance: Liquid	Color: Yellow/green	Smell: -	PH value: -	ViscosityViscosityViscosity: -
Flame point: >180°C - CC	Boiling point: >190°C	Vapour pressure: 1 Pa	Relative density:	Melting point/freezing point: -
Percentage of Solid Molecular Weight: Particles: -	-	Formula: -	Solubility water: Insoluble	

9.2 Other information:

-

SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity: not reactive.

10.2 Chemical stability: The product is stable under normal handling and storage conditions.

10.3 The risk of dangerous reactions:

None known.

10.4 Conditions to be avoided:

None known.

Vinnie's Oil UPO

Version 1.0

Date of issue: 14/03/2023

10.5 Incompatible materials: none.

10.6 Hazardous decomposition products:

SECTION 11: TOXICOLOGICAL INFORMATION

11.1. Information on the toxicological effects:

Acute toxicity: Not classified.

LD50oral rat 24 t > 2000 mg/kg **Corrosive**
and irritating effects on skin: No data to cater to.

Severe eye injury/eye irritation:

The product may cause transient irritation upon eye contact.

Respiratory or skin sensitization: Not relevant.

Carcinogenicity: Not relevant.

Reproductive toxicity: Not relevant.

Specific target organ toxicity – single exposure:
Note relevant.

Specific target organ toxicity – repeated exposure:
Note relevant.

Danger in case of aspiration: Not classified.

Other information: When inhaled: the product is not dangerous if inhaled
In case of contact with eyes: Irritates the eyes.
Transient.
In case of skin contact: In case of an allergic reaction,
contact 911.

SECTION 12: ECOLOGICAL INFORMATION

12.1. Toxicity: Not classified.

12.2 Persistence and degradability:

Safety data sheets

Vinnie's Oil UPO

Version 1.0

Date of issue: 14/03/2023

The product is degradable in nature.

12.3 Bioaccumulation capacity:

The product is classified as not environmentally hazardous

12.4 Mobility in soil: The product is classified as not hazardous to the environment

12.5. Results of the PBT and vPvB assessment:

The product contains no PBT or vPvB substances.

12.6 Other harmful effects: None known.

SECTION 13: WASTE MANAGEMENT

13.1. Waste treatment methods:

Residues, spills and uncleaned empty packaging are not hazardous waste. Left for destruction according to local regulations. Well-emptied, brush-dry, drip-free cans are handed over to recycling stations or recycling centers. Used rags, tangles, etc. are put in water or set on fire to avoid self-ignition.

Contaminated packaging:

Not relevant.

SECTION 14: TRANSPORT INFORMATION

Not covered by the international regulation of the transport of dangerous goods.

SECTION 15: REGULATIONS IN FORCE

15.1. Safety, health and environmental regulation/legislation on the substance or mixture: Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18. December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). Regulation (EC) No 1272/2008 of the European Parliament and of the Council. Hygienic limit values (AFS 2018) Waste Ordinance (SFS 2001:91062) Swedish Chemicals Agency's regulations (KIFS 1998:8) on chemical products and biotechnological organisms, as amended (latest KIFS 2008:1). Prevention of serious chemical accidents (AFS 2005:19), as amended (latest AFS 2007:10). Hygienic limit values and measures against air pollution (AFS 2018) Directive 94/33/EC for the protection of young people at work. Directive 92/85/EEC for pregnant workers. Decision 2000/532/EC of the Commission of 3 May 2000 (waste). Ministry of the Environment Waste Ordinance (2001:1063), as amended (most recently 2007:381). EC Regulation 830/2015.

Usage restrictions: -

15.2. Chemical safety assessment:

No
